Rocky's Product Catalog
For over 40 years, Rocky's has been building the most durable solar cover reels & roller systems on the market.

ROCKY'S
Quality pool cover reel systems

Contents

PEOPLE, PRODUCTS, PRICES

Rocky's is a family run company that has been manufacturing the highest quality swimming pool reel systems and products since 1976. Our head office is located in the beautiful Okanagan Valley in British Columbia, Canada.

Our products are proudly made in North America, using only the highest quality materials. If you would like to find out more about our company or products, please feel free to contact us anytime.

Rocky's is a global supplier and has been working with the largest pool supply distributor networks world wide for over 40 years. From India to Mexico to Italy to New Zealand (to name just a few), our quality products are sought after around the globe.

Rocky's is fully capable of exporting any sized order for International customers. If you are interested in distributing the Rocky's brand in your area, please contact us directly for details. 1-800-663-8705 or info@rockys.ca

Residential Products

For over 40 years, Rocky's has been crafting the highest quality manual solar cover reel systems for backyard pools. Our residential systems are built to last and with our 10 year warranty backing every reel system we manufacture, you can be sure you will get years of use out of your investment. These reel systems are for residential application only. If a residential system is sold to a commercial user the warranty will be voided.

Our reel systems save you time and money, allowing you to fully enjoy your backyard oasis!

NEW! CLEAR COAT FINISH AVAILABLE ON SELECT MODELS.

3 Portable

The 3 Portable Reel System uses 4" hubs and 4" tubing, making it capable of smoothly rolling a longer solar cover. It is designed for use as a portable unit. Ground clearance to the underside of tubing is approximately 9". For use on pools up to 24' x 45'. Compatible with Rocky's 4 Inch Adjustable Tubing or Commercial Tubing.

Additional information: page 28-29

Part: 305

3A Portable

The 3A Portable Reel System is for the typical backyard pool. Comes with 2" wheels for easy maneuvering. Ground clearance to underside of tubing is approximately 9.5". For use on pools up to 24' x 45'. Compatible with Rocky's AT-1 (Part 323) and AT-2 (Part 325) Tubing.

Additional information: page 30-32

Part: 307

3A Portable Clear Coat

The popular 3A Portable Reel System now in a clear coat for a sleek industrial look that compliments concrete pool decking. Comes with 2" wheels for easy maneuvering. Ground clearance to underside of tubing is approximately 9.5". For use on pools up to 24' x 45'. Compatible with Rocky's AT-1 (Part 323) and AT-2 (Part 325) Tubing.

Additional information: page 30-32

Part: 307CC

4 Permanent

The 4 Permanent Reel System is designed to be bolted into place making it our most versatile system as it can be secured to numerous surfaces such as walls, raised decking or under a diving board. Popular with above ground pool and fitness pool owners. Ground clearance to the underside of the tubing is approximately 6.5". For use on pools up to 24' x 35'. Compatible with Rocky's 4 Inch Adjustable Tubing or Commercial Tubing.

Additional information: page 33-34

Part: 313

5

4A Permanent

The 4A Permanent Reel System is designed to be bolted into place making it our most versatile system as it can be attached to numerous surfaces such as walls, raised decking or under a diving board. Popular with above ground pool and fitness pool owners. Ground clearance to the underside of the tubing is approximately 6.75". For use on pools up to 24' x 40'. Compatible with Rocky's AT-1 (Part 323) and AT-2 (Part 325) Tubing.

Additional information: page 35-37

Part: 309

4A Permanent Clear Coat

Now in a Clear Coat for a modern industrial design the 4A Permanent Reel System is designed to be bolted into place making it our most versatile system as it can be mounted to numerous surfaces such as walls, raised decking or under a diving board. Popular with above ground pool and fitness pool owners. Ground clearance to the underside of the tubing is approximately 6.75". For use on pools up to 24 'x 40'.
Compatible with Rocky's AT-1 (Part 323) and AT-2 (Part 325) Tubing.

Additional information: page 35-37

Part: 309CC

5 Portable

The 5 Portable Reel System is the largest and most robust of Rocky's Residential Systems. It is designed for use as a portable unit and to handle a thicker, heavier cover. The 5 has a longer handle and 4" locking wheels to support it's sturdy design. Ground clearance to underside of tubing is approximately 10.5". For use on pools up to 24' x 60'. Compatible with Rocky's 4 Inch Adjustable Tubing or Commercial Tubing.

Additional information: page 38-39

Part: 315

5A Portable

The 5A Portable Reel System uses Rocky's 3 Inch Adjustable Tubing. The 5A has a longer handle and 4" locking wheels to support it's sturdy design. Ground clearance to the underside of the tubing is approximately 10.75". For use on pools up to 24' x 65' . Compatible with Rocky's AT-1 (Part 323) and AT-2 (Part 325) Tubing.

Additional information: page 40-41

Part: 317

6

High Riser Residential

The High Riser Residential has the highest deck clearance out of all Rocky's Residential Systems. The longer handle and higher profile make this unit excellent for pool owners that don't want to have to bend over to reel in their solar cover or for larger residential pool applications. Ground clearance to the underside of the tubing is approximately 26.5". For use on pools up to 24' x 90'. Compatible with Rocky's AT-1 (Part 323) and AT-2 (Part 325) Tubing.

Additional information: page 42-44

Part: 318

AT-1 Tube

The Adjustable Tube 1 is designed to work with the 3A, 4A and 5A Residential Systems. The AT-1 Tube adjusts from 15 feet to 21 feet giving it the ability to fit any residential pool up to 20 feet wide.
We recommend the tube be a foot wider than the pool. This ensures you won't have wheels hanging into the pool and that the cover won't catch on the end units.

Additional information: page 45

Part: 323

AT-2 Tube

The Adjustable Tube 2 is a longer version of the AT-1 Tube. The AT-2 Tube adjusts from 17 feet to 25 feet giving it the ability to fit any residential pool up to 24 feet wide. The AT-2 also has a bigger tensioning system to ensure that it does not sag. For use on pools up to 24' wide. Compatible with Rocky's 3A, 4A, 5A and High Riser Residential Systems. We recommend the tube be a foot wider than the pool. This ensures you won't have wheels hanging into the pool and that the cover won't catch on the end units.

Additional information: page 46

Part: 325

4 Inch Adjustable Tube

Rocky's 4 Inch Adjustable Tubing is for use with the 3, 4 and 5 Residential Reel Systems. It is a 4 inch diameter tube that is similar in design to the AT-1 and AT-2. The 4 Inch Tubing can adjust from 16' up to 23'. It is ideal for heavier covers or pool owners that want a more robust tube. For use on pools up to 22' wide.

Additional information: page 47

Part: 327

Automated Products

Over the years customers have inquired about the use of motors with our products. We have seen a few after market motors come and go but they never withstood the test of time. Over the past few years Rocky's has been developing a motor that fits inside our 3" Adjustable Tubing. In the future we hope to have bigger motors available for our Commercial systems.

3" Motor Kit

PART # 300

Rocky's 3" Motor Kit is designed to fit into our 3" Adjustable Tubing. This means that the motor can be retrofitted onto any existing Rocky's reel using our AT-1 or AT-2 tube. The motor can be used on pools that are up to 20' wide by 40' long. It provides 20 NM of force and the battery can last about 2 months on a full charge using it twice a day.

Specifications

-Long lasting Battery
-Remote Controlled
-Detailed video instructions available
-Can still be manually operated
-1 year Manufacturers Warranty
-Assembled in Canada
-Weighs 8 lb.

-Works on pools up to 20' x 40'
-Durable Construction
-Charges fully in twelve hours
-Water resistant
-Uses LifePO4 Batteries
-Ships in one box 36"x 6"x 6"

Commercial Products

If you own or operate a commercial pool, Rocky's is the only brand of reel system you should be considering.

We offer a full range of commercial sized reel systems to handle larger pool applications. These systems are backed by the same great Rocky's 10 year warranty, providing organizations with peace of mind about investing in a solar cover reel system.

Our heavy duty commercial reels use only the best materials sourced and manufactured in North America and are built to handle solar covers up to 100' long (depending on the width of the pool). Our Commercial reel systems are designed for the rougher handling encountered in a commercial environment. Please contact us today for more information.

Junior

The Junior is the smallest of Rocky's Commercial Systems. It is designed for use as a portable unit and has a third leg with additional wheel for extra stability. The Junior uses Rocky's 12 sided, 4" anodized Commercial Tubing. Ground clearance to underside of tubing is approximately 11". For use on pools up to 32' x 85'. Compatible with Rocky's 4" Commercial Tubing which can be ordered in any length up to 33'.

Additional information: page 43-44

Part: 319

Senior

The Senior is the most popular of Rocky's Commercial Systems, it is designed to handle large covers up to 100' long. It comes with Rocky's high quality 4" locking wheels, so it can be easily moved pool side. Ground clearance to the underside of the tubing is approximately 14". For use on pools up to 32' x 100'. Compatible with Rocky's 4" Commercial Tubing which can be ordered in any length up to 33'.

Additional information: page 46-47

Part: 321

High Riser Commercial

The High Riser has the highest deck clearance out of all Rocky's Commercial Reel Systems and is designed to clear obstacles on the pool deck. This unit is excellent for facilities with people that don't want to have to bend over to reel in their cover. For the best performance Rocky's recommends using a tube that does not surpass 25' in length. Ground clearance to the underside of the tubing is approximately 26.75". For use on pools up to 24' x 100'. Compatible with Rocky's 4" Commercial Tubing which can be ordered in any length up to 25'.

Additional information: page 48-49

Part: 318-C

4 Inch Commercial Tube

Rocky's heavy duty, 4" Commercial Tubing is designed to work with all of Rocky's Commercial Systems. This high quality tubing is anodized and uses a 12 sided design to increase the strength and lateral integrity. Rocky's 4" Commercial Tubing can be custom cut to fit any pool shape and size. For use on pools up to 33' wide and is compatible with Rocky's Commercial Reel Systems. Weight, dimensions and part numbers for specific lengths available on Page 50.

Parts: 332-349

Replacement Parts

Rocky's offers a complete list of replacement parts and accessories for all our systems. So it's easy for owners to upgrade or replace parts, without having to purchase a new unit.

To look up replacement parts by reel model please see the technical information on Page 24.

4 Inch Tubing (Non Adjustable)

Bolts
Lock Nut
INSERT JOINER SECTION HALF WAY INTO TUBE.
V-GROOVE
Bolts
Lock Nut
Call Rocky's for part information for the 4 Inch Tubing.
1-800-663-8705

These tubes are made to order so the tubes vary in size. The only parts that are the same on the 4 Inch (non adjustable) Tubing are the Bolts that are used to assemble the Tube. If you need to replace the Bolts please order Part # 522 Commercial Hardware Bag seen on page 16.

4 Inch Tubing – Product Specifications

-Extruded Aluminum Construction
-Built to Order
-Fits pools that are up to 32' wide
-Industrial Grade Hardware
-Fits Rocky's 4" Hubs
-No Plastic Parts
-Ideal for larger pools

-Clear Anodized Satin Finish
-Easy To Assemble
-Light Weight Yet Extremely Strong
-Not Affected By Sunlight Or Freezing Cold
-Commercial Grade
-Made in Canada
-Weight: Varies by length

-Can be used on any 4" system (Residential or Commercial)
-Check the end unit you are looking at to see what the maximum tube length is for that specific system. Pages 5 to 11
-Ships in one or two boxes size dependent. (Call Rocky's for information on packaging) 1-800-663-8705
-Instructional videos available at www.rockys.ca

This page left intentionally blank.

Residential Sizing Charts

The following charts show the maximum length of tube that can be used with each of Rocky's Residential Reel Systems.

The Charts also show the maximum length of solar cover that can safely be used with each length of tube.

These charts are a great reference tool that can be used to accurately recommend a reel system and tube combination based off the most extreme dimensions of a residential swimming pool.

Call Rocky's for part information on the 4 Inch Commercial Tubing.
1-800-663-8705

These tubes are made to order so the tubes vary in size. The only parts that are the same on the 4 Inch (non adjustable) Tubing are the Bolts that are used to assemble the Tube. If you need to replace the Bolts please order Part # 522 Commercial Hardware Bag seen on page 16.

4" Inch Commercial Tubing – Product Specifications

-Extruded Aluminum Construction
-Built to Order
-Fits pools that are up to 32' wide
-Industrial Grade Hardware
-Fits Rocky's 4" Hubs
-No Plastic Parts
-Ideal for larger pools
-Clear Anodized Satin Finish
-Easy To Assemble
-Light Weight Yet Extremely Strong
-Not Affected By Sunlight Or Freezing Cold
-Commercial Grade
-Made in Canada
-Weight: Varies by length
-Can be used on any 4" system (Residential or Commercial)
-Check the end unit you are looking at to see what the maximum tube length is for that specific system. Pages 5 to 11
-Ships in one or two boxes size dependent. (Call Rocky's for information on packaging)
1-800-663-8705

Commercial Sizing Chart

The following chart shows the maximum length of tubes that can be used with each of Rocky's Commercial Reel Systems.

The Chart also shows the maximum length of solar cover that can safely be used with each length of tube.

This chart is a great reference tool that can be used to accurately recommend a reel system and tube combination based off the most extreme dimensions of a Commercial swimming pool. For pools that are larger than 33' wide please contact Rocky's and we can discuss reel system options that might suit your pool.

Our Quality

Rocky's Reel Systems has manufactured the industry's most robust manual solar cover reel systems for over 40 years and we stand by our product.

That is why all of our reel systems are backed by our Ten Year Warranty. When you sell a Rocky's Reel you are also selling peace of mind to your customer.

Once a pool owner in North America registers their warranty number either by phone or through our website: www.rockys.ca, they can contact us directly should an issue arise with their reel system. This saves you time and helps your customer get the parts they need as quickly as possible.

Warranty Information

For the most up to date warranty information please visit our website: www.rockys.ca or call our office at: 1-800-663-8705

FULL 10-YEAR WARRANTY*
North America

WARRANTY REGISTRATION #

To all **original purchasers** of its products, Rocky's Reel Systems Inc., warrants its product free from defects in materials and workmanship for a period of TEN (10) YEARS** from the date of purchase. Products which fail or become defective during the warranty period, except as a result of accident, negligence, improper installation, corrosion, improper use, improper care, modification or alteration after purchase, shall be replaced or repaired at our option without charge within 90 days of receipt of the defective product, barring unforeseen delays.
Rocky's Reel Systems Inc., shall not be responsible for cartage, removal, and/or re installation, labor, or other such costs incurred in obtaining warranty replacement parts.

This warranty supersedes all warranties printed or implied.
To obtaining warranty replacements parts in North America please call:

1 - 8 0 0 - 6 6 3 - 8 7 0 5
All others Countries:
Please contact your local supplier who will help you with the warranty process

U.S. customers, do not return goods to the Kelowna, B.C. address as they will be refused, a returned goods # must be obtained before any goods will be accepted.

IMPORTANT: To validate your warranty in North America you must register the warranty number with Rocky's within 30 days from purchase failure to register may nullify your warranty. Warranty claims are only valid if filed by the original purchaser.
CUSTOMERS MUST QUOTE THE WARRANTY REGISTRATION NUMBER (ABOVE) IN ORDER TO OBTAIN REPLACEMENT PARTS.
R E T A I N   T H I S   P O R T I O N   F O R   Y O U R   R E C O R D S

**Wheels,Tubing and Consumable items i.e. Paint, Grommets & Strapping are not covered under this warranty.
Your product is made from die cast aluminum which does not rust, therefore any cuts, nicks, chips or scratches in the paint will not affect the performance of this unique product. This normal wear and tear is not part of any guarantee or warranty. It is also not grounds for replacement. Paint can be touched up with almost any type of white waterproof paint. If you have any questions about the paint please contact Rocky's.

WARRANTY REGISTRATION #

Important

To validate your warranty you **must** register your Rocky's product online within 30 days of your purchase date.
Register online at: **www.rockys.ca**
Go to: www.rockys.ca/products/warranty-registration
to complete your warranty registration.

For more information please contact us by one of the following methods:
Email: info@rockys.ca   Phone: 1-800-663-8705
Fax: 1-604-985-4325 or via our website: www.rockys.ca

Dear Valued Customer,

Congratulations, you have purchased the very best swimming pool cover reel system available on the market! Your **Rocky's** Reel System will provide you with years of use and is backed by a 10 year hassle free warranty.

The Rocky's end units are made from **Die Cast Aluminum**, making them strong yet lightweight (please note that the handles are also die cast and are not designed for lifting the unit or for standing on). Provided that the **Rocky's** system is used for the purpose it was designed for, this will be the last reel system you purchase.

Rocky's tubing is **12-Sided Anodized Aluminum** and has a satin luster finish. Only extend the adjustable reels to the maximum length suggested in the instructions. If a warranty problem should arise please telephone us at **1-800-663-8705** (North America only) or email us at info@rockys.ca.

IMPORTANT: Please remember to apply waterproof petroleum grease to the inside of the black bushings, at least once a year, this will ensure the unit operates smoothly.

WARNING:
IMPORTANT

Stick the Warning Label to the tube

Help Prevent Drowning.
Completely Remove the cover before using the pool.
Never swim under a cover.
Do not stand on top of the cover.
