TOTAL CONTROL FOR EVERYTHING UNDER THE SUN.

OMNIHUB™ IS THE EASIEST WAY TO ADD SMART CONTROL TO EXISTING POOLS & SPAS.

OmniHub offers control of a full range of pool and spa equipment, including pumps, heaters, lighting, sanitization, water features and more, right from a smartphone or tablet. OmniHub installs in just a few hours and is easy to configure with existing equipment, saving both time and hassle.

PUMPS
Control flow speed

HEATERS
Adjust temperature

LIGHTS
Change colors & set themes

SALT SYSTEM
Set & monitor salt levels

CLEANERS
Schedule cleanings

WATER FEATURES
Control lighting & themes

SPA SETTINGS
Switch to spa mode

Simple five-step installation for pool professionals.

Installing OmniHub is a simple five-step process. With fast, intuitive configuration and compatibility with most pool equipment brands, it's the most trade-friendly smart control solution on the market.

- 1 Mount Wiring Base Unit and Control Pad.
- 2 Replace equipment (such as heater or pump), if applicable. Detach power from the filter pump (or other high powered equipment) and make wiring connections to the Wiring Base Unit. Run the supplied 6-ft whip from the Wiring Base Unit to the equipment.
- 3 Replace existing light switch with Omni Smart Relay or install Smart Relay in line with controlled equipment.
- 4 Connect control wires from the controlled equipment—including Control Pad, Smart Relay comm cables, VS pump comm cables, sensors and actuator cables—to the Wiring Base Unit.
- 5 Pair Wi-Fi and configure Control Pad.

Control Pad can be wall-mounted, features an intuitive touchscreen interface and maintains pool pad control even without internet connection

Wiring Base Unit offers connections for both high and low voltage wiring for easy configuration with different types of equipment

App offers total control from anywhere on iPhone, iPad and Android

Smart Relay converts existing equipment for control with OmniHub, such as Hayward® single-speed pumps and lights

The smartest way to upgrade any pool or spa.

Whether pool owners are looking to replace a pump, put in a new salt chlorination system or upgrade another type of pool equipment, bundling Hayward® products with OmniHub™ is an easy way to add total pool and spa control at significant cost savings.
